03 · BRAND ARCHETYPE

# Brand Archetype

The psychological persona that defines how LASS Realty communicates.

THE SAGE

## The Sage

The Sage archetype seeks truth through knowledge — analyzing, structuring, and sharing deep expertise with their audience. Sages want people to understand the world better through reliable, well-researched guidance.

For LASS Realty, this means positioning as the definitive authority on Punta Cana real estate. Every interaction — from property presentations to market reports — should reflect deep local knowledge, transparent counsel, and trustworthy expertise.

SAGE BRAND TRAITS

|          |                                                                                       |
|----------|---------------------------------------------------------------------------------------|
| Voice    | Authoritative, intelligent, and trustworthy. Avoids hype; favors substance and depth. |
| Tone     | Calm, measured, and precise. Educates without condescending to the audience.          |
| Promise  | "We will help you understand the market and make the right decision."                 |
| Fear     | Being seen as uninformed, biased, or misleading clients.                              |
| Strategy | Share knowledge freely. Build trust through expertise and radical transparency.       |

04 · LOGO SYSTEM

# Logo System

Guidelines for correct usage, clear space, and protected applications of the LASS Realty mark.

The LASS Realty logo consists of a geometric mountain/chevron icon and a wordmark set in a clean sans-serif typeface. The icon and wordmark are always presented together as a unified mark unless a specific approved exception applies.

MINIMUM SIZE

|                                      |                                   |                                          |
|--------------------------------------|-----------------------------------|------------------------------------------|
| <b>Digital:</b> 214 px minimum width | <b>Print:</b> 60 mm minimum width | <b>Physical:</b> 2¼ inches minimum width |
|--------------------------------------|-----------------------------------|------------------------------------------|

CLEAR SPACE

Always maintain a minimum clear space equal to the cap-height of the 'L' in 'LASS' on all four sides of the logo. This exclusion zone must remain free of all other graphic elements, text, photography, or competing marks.

LOGO VARIATIONS

| Primary (Full Color)                                                 | Reversed (White)                                           | Monochrome (Black)                                            |
|----------------------------------------------------------------------|------------------------------------------------------------|---------------------------------------------------------------|
| For use on white or light backgrounds.<br>Default preferred version. | For use on navy, dark photography, or colored backgrounds. | For single-color print, embossing, or engraving applications. |

LOGO MISUSE — PROHIBITED

|   |                                                     |
|---|-----------------------------------------------------|
| ✗ | Do not distort or alter the proportions of the logo |
| ✗ | Do not add contours or outlines to the logo         |
| ✗ | Do not add a drop shadow to the logo                |
| ✗ | Do not make the logo bolder or change its weight    |
| ✗ | Do not change any elements relative to each other   |
| ✗ | Do not rotate the logo to any angle                 |

05 · COLOR PALETTE

# Color Palette

| PRIMARY   | ACCENT         | TEXT           | BACKGROUND | SURFACE   | SECONDARY |

COLOR USAGE GUIDELINES

|                        |                                                                                |
|------------------------|--------------------------------------------------------------------------------|
| Navy Blue #1B2B4B      | Primary background, headers, and key UI elements. Conveys authority and trust. |
| Champagne Gold #C9A84C | Accent for CTAs, icons, highlights, and decorative rules. Use sparingly.       |
| Charcoal Black #111111 | Body text and high-contrast elements. Never use pure #000000.                  |
| Off-White #F4F4F0      | Page backgrounds, card surfaces, and light section fills.                      |
| Mid Gray #888888       | Secondary text, captions, metadata, and muted UI states.                       |
| Pure White #FFFFFF     | Reversed text on dark backgrounds and clean spatial separators.                |

06 · TYPOGRAPHY

# Typography

A disciplined type system balancing editorial elegance with digital clarity.

PRIMARY TYPEFACE

## Playfair Display

Playfair Display is a high-contrast transitional serif typeface designed for editorial and display use. Its elegant proportions and refined detailing reflect the luxury positioning of LASS Realty, making it ideal for headlines, property names, and brand statements across digital and print applications.

TYPOGRAPHIC SCALE

| Role            | Font             | Size    | Weight    | Usage                             |
|-----------------|------------------|---------|-----------|-----------------------------------|
| Display / H1    | Playfair Display | 48–64px | Bold      | Hero headlines, property names    |
| Heading / H2    | Playfair Display | 28–36px | Semi-Bold | Section titles, feature headings  |
| Subheading / H3 | Playfair Display | 20–24px | Regular   | Card titles, sub-sections         |
| Body Large      | Inter / Sans     | 16–18px | Regular   | Lead paragraphs, descriptions     |
| Body            | Inter / Sans     | 14–16px | Regular   | General content, property details |
| Caption / Label | Inter / Sans     | 10–12px | Medium    | Tags, metadata, UI labels         |
| Legal           | Inter / Sans     | 10–11px | Light     | Disclaimers, fine print           |

TYPOGRAPHY RULES

|           |                                                                                                                                    |
|-----------|------------------------------------------------------------------------------------------------------------------------------------|
| Hierarchy | Never use more than 3 typographic levels in a single layout. Maintain clear visual distinction between Display, Heading, and Body. |
| Contrast  | Pair Playfair Display headlines with a clean humanist sans-serif for body text. Never set long body copy in Playfair Display.      |
| Alignment | Left-align body text. Center-align display text only on dedicated hero or cover layouts.                                           |
| Tracking  | Use standard or slightly negative tracking on large display type. Add +2–3% tracking on all-caps labels and captions.              |

**Line Length** Maintain 60–80 characters per line in body copy for optimal reading comfort.
